🧠 Skills

Technical skills

Frontend Development:
HTML5,
 CSS3,
JavaScript (Basic–Advanced),
TypeScript,
 React.js,
Responsive Design,
SASS/SCSS
Styling Frameworks & UI: Tailwind CSS,
Bootstrap, Flexbox, CSS Grid
Animations: GSAP (ScrollTrigger, basic animations, useGSAP hook), Framer Motion (learning)
Tools & Backend: Firebase Authentication, Firestore Database, Git & GitHub, VS Code

Soft Skills
Problem Solving, Attention to Detail, Fast Learner, Creativity, Communication, Team Collaboration

🎓 Education

Modern web and app development, saylani mass it training program ⤢
02/2025 – Present | karachi

Diploma of associate engineering in computer information technology, Government Polytechnic Institute (Girls), Saudabad, Malir, Karachi

📁 Projects

cafe bloom landing page ⤢
A simple, responsive website for a cafe, built by translating a **Figma design into clean HTML and CSS**. Focused on semantic HTML structure and internal CSS styling to create a modern and accessible layout.
Key Features & Technologies:
- Semantic HTML5 for meaningful structure and accessibility
- Internal CSS for styling and layout
- Fully responsive design for mobile and desktop
- Pixel-perfect translation from Figma design to code

Notes Taking App ⤢
A responsive and secure note-taking web application built with **React**. The app allows users to **create, read, update, and delete (CRUD) notes** in real time. It features **user authentication** and protected routes to ensure that each user's data is private.
Key Features & Technologies:
- **React Hooks:** useState for state management, useRef for DOM interactions
- **Routing:** react-router-dom with **protected routes** for secure navigation
- **Authentication:** Firebase Authentication for secure user login and signup
- **Database:** Firestore for real-time CRUD operations
- **Styling:** Tailwind CSS for responsive and modern UI

Static Portfolio ⤢
Built a **fully responsive resume** from scratch using **semantic HTML5** and **CSS Grid**. The site showcases personal information, skills, education, and contact details in a clean, professional layout. Designed to be accessible and scalable across devices.
Technologies: HTML, CSS, CSS Grid, Responsive Design
